W. G. CUTTLE.

PLATFORM OF W. G. CUTTLE.

For Science Representative.

Born—Montreal.

Preparatory School—Montreal High, Class of 1912.

Enlisted Feb. 17, 1915, with 5th C.M.R., later transferred to 8th Machine Gun Co. Commissioned with 1st Motor Machine Gun Brigade Sept. 1917, and was with them until the armistice.

Joined McGill as a member of Sci. '23.

In response to the requests of some representative undergraduates of the faculty of Science I have agreed to stand as a candidate for the office of Science representative on the Students' Council.

If elected I will do my best to further both inter-faculty and class competition. Just as faculty teams are a training ground for college teams, so class teams would be a training ground for faculty teams.

2.—To have returned men in 1st and 2nd years exempted from compulsory physical training.

3.—To further the interest taken in the Rooters' Club, especially amongst 1st and 2nd year men.

Finally, I will do all possible to further the interests of the Science Undergraduate Society.

A. G. DICKINSON.

ALBERT G. DICKINSON.

Third Year Electrical.

Home—Vancouver, B.C.

Born—West Selkirk, Manitoba.

High School education taken in British Columbia. Entered McGill, Oct., 1919.

Service overseas—3 years, 10 mos.

As far as can be ascertained there are no outstanding points which give scope for an individual platform; but Science students can rest assured that, if elected, I shall do my best to represent them on the Students' Council in a thorough and efficient manner.

A. G. DICKINSON, Sci. '23.

J. ROBINSON.

PLATFORM OF JOHN ROBINSON, B.A.

For Law Representative.

Born—Nov., 1895, Waterloo, Que.

Schools—Waterloo High; Bishop's College School.

Arts—B.A., University of Bishop's College.

Activities—President, Law '22; Class Hockey and Basketball; Junior Dance Committee.

Military Service—Three years and three months.

Policy—"Should I be elected, I bind myself to submit all questions of momentous issue to my constituents prior to voicing my opinion at the Council. In this way I would be not merely your representative, but in truth your mouthpiece."

I shall at all times place myself at the disposal of the Law Students on all questions for the benefit of the Faculty at large.

MONTREAL, WEDNESDAY, NOVEMBER 30, 1921.

CURRENT EVENTS.

Since the end of the Great War we have been living in a world that is full of stirring events—Irish problems, miners' strikes, petty wars and skirmishes that still disturb the peace of Europe, and now the Disarmament Conference that is being held at Washington and that presents to us a strange irony to all the bloodshed and strife of the past few years, but that still may be regarded as a logical outcome of it all. We are living in a period of great change, and it behooves us especially as college men, to know and understand the motives and underlying causes of these currents and counter-currents that are running through the world to-day, and from which we hope much good will ultimately spring.

The first requisite for a complete understanding of any problem or set of problems, is a somewhat detailed knowledge of the facts pertinent to the case in hand. Do we, as college students, enjoy such a knowledge of affairs in the world to-day that we are able to judge any modern problem without bias or prejudice? Is it not very doubtful that we could judge competently?

The daily round of life at college is a busy and an exacting one, and although some students give much thought and time to the discussion of modern problems, the great majority find that they have little leisure for reading the daily papers, and the various periodicals. College life tends to become self-centred. It is a little world in itself, but still some connection should be kept up with the world at large.

But how can this connection be kept up? We have all formed, at some time or other a resolution that we would reserve a certain portion of the day for reading the papers, then along comes an especially busy week and our good resolutions have taken to themselves wings and have flown away. Does not the course in Politics that is being given at McGill contain a suggestion for us? Why could we not have a course in Current Events? We should not be compelled to go outside our university to find men capable of giving such a course of lectures. Many of our professors show by the way in which they link up the past with the present in their lectures that they are thoroughly conversant with modern problems and are quite competent to give a course on current events. These lectures could be given independently in each faculty, and would necessitate an almost negligible amount of extra work for the student.

There is great need for such a course as this. The university should produce not only men whose brains are steeped in theories and impracticalities of the past, but should also turn out men who have a good working knowledge of the problems of our modern world.

THE ELECTIONS.

To-day the students in the various faculties of the University are being given the chance to decide what men they wish to have representing them on the Students' Council. The nominations, especially from several of the faculties, have been quite numerous, and a close and exciting election time is expected.

Every student should consider carefully the programme of the various candidates for his faculty, and should then cast his vote accordingly. It is of great importance that each faculty should have a strong, able representative on the Students' Council, important not only from a faculty standpoint, but also important in consideration of the general welfare of the university.

It is the duty of every McGill man to vote to-day, and every undergraduate should remember that a live interest taken in university affairs such as these faculty elections, does much in building up a healthy vital college spirit.

EDITORIAL NOTE.

The letter from Dr. J. A. Nicholson explains the difficulty encountered in getting news of college interest. However, we must deny that the charge made in yesterday's editorial was directed solely against the Registrar's Office. As a matter of fact, that office is one of the few that sees fit to send down items to the paper. There is no lack of notices sent from all of the departments when it is in the interest of the departments to have them published.

The news of the appointment of E. W. Beatty, as Chancellor of the University is a definite instance where no information was given either before or after the appointment. The staff of the paper made every effort to secure news of the appointment after seeing the notice in a city paper in the afternoon, which was quite proper, seeing that the appointment had been made during the day, but they were unable to find any official source of information. The report published in the "Daily" was later criticized because an error had been made, notwithstanding the fact that the city papers had made the same mistake.

The conditions concerning the appointment of Laurence Armstrong, as Rhodes Scholar, were well known to the Managing Board of the college paper, and no reflection could have been made on the Registrar's office on that account. The complaint was entirely general, and did not apply to any department in particular. However, if an instance of active co-operation is wanted we might have the case of the Department of Physical Education, which is the first to convey any information of importance to the paper.

CORRESPONDENCE

The Editor,
McGill Daily,
McGill University.

Dear Sir:-

In an editorial in to-day's issue, there is an implied charge that the "college authorities do not always see fit to give news to the college news journal at the same time as it is given to the city papers", and one instance in particular is mentioned, namely the announcement of the selection of Mr. Lawrence Armstrong as Rhodes Scholar for the Province of Quebec.

If the above charge is directed against the Registrar's office (as I half suspect it is), may I point out that there are several offices around the University (perhaps as many as nine or ten) where news can be gathered, and that these are visited almost daily by reporters from the city newspapers. Such information as they obtain in this way is not specially prepared for them. A few facts may be given and the reporter does the rest. With the limited staff at your command, I quite understand that it would be difficult for Daily reporters to visit these offices regularly for University news, and yet, it seems to me that this would be the only way to ensure the college paper getting the same information as the papers outside.

In universities where the whole administration is centralized (and there are few where it is not), practically every detail of university work is known at this central office and it is here that all kinds of information is generally obtained. This is not the case, however, in McGill. News, more or less official in character (much of which never reaches any central office at all) can be obtained from several sources, such for instance as, Deans' offices, offices of Departments, and committees, etc., to say nothing of the Principal's office or the Bursar's office which are in the administration building itself, so that any one office cannot be held responsible for the issuing (or the failure to issue) information to the Daily. Under these circumstances the labours of the college newspaper staff is more difficult than would otherwise be the case.

In so far as my own office is concerned, we try to give the Daily any official information that is sent to the city papers. By official information I mean such matter as is specially prepared for publication. Some items are, no doubt, given out verbally, and in a sense unofficially, to reporters as they call, and it is not always easy for the person giving this information to them deliberately sit down and write out the same statement for the college paper. In this way it is likely that some matters of college interest do get into the city papers without having been communicated at the same time to the Daily, but these are generally of little account.

As regards the Rhodes Scholarship, it appears that you do not understand the arrangement for the selection of a scholar which now exists. A Rhodes Scholar for the Province of Quebec, as is the case in every other province in the Dominion, is selected by a committee appointed by the Rhodes Trust. This committee receives applications from candidates regardless of the university they are attending, or have attended, and out of this list of applicants the committee makes its choice in accordance with the regulations laid down. No university has anything to do with the selection. Up to a few years ago it was different. Each university in the Province had a right to choose a Scholar according to a regular system of rotation, but this has all been changed, as already stated. The selection of Mr. John Farthing last year and of Mr. Lawrence Armstrong this year, was made by a committee outside of any university in the Province and the announcement of the result was made by that committee presumably through the Associated Press. McGill had nothing whatever to do either with the selection or with the announcement of it. No McGill people (except perhaps a few friends of the candidate) knew anything about it until they read it in the Gazette of the 25th instant.

I am quite sure that all who are connected with the University in any official capacity are desirous of doing the best possible by the college paper. If things go awry sometimes, let me assure you for myself, (and I think I can safely say for any others who give out information), that it is not intentional, but rather because of the unfavourable circumstances mentioned above. We think too highly of the McGill Daily to treat it otherwise than with the best possible consideration.

Yours very truly
J. A. Nicholson,
Registrar.

HONOR CONFERRED UPON DR. VILLARD

Receives Decoration for Services Rendered During War.

MEETING OF PHY. SOCIETY LAST NIGHT

Held in the Old Medical Building.

PAPER BY MR. QUACKENBUSH.

Mr. McLean Elected to the Library Committee.

The third regular meeting of the Physiological Society was held in the Old Medical Building last evening.

Owing to the resignation of Mr. J. S. Heney, from the Library Committee, a new member had to be chosen. Mr. McLean of Med. 26 was elected to the position. It was decided that if a speaker could be obtained, the next meeting would be held in December; if suitable arrangements could not be made, an opportunity for the exchange of books would be given about Dec. 20 and the next regular meeting held in January on a date to be decided later.

Following the transaction of business the programme of the evening consisted of a very interesting address by Mr. Quackenbush of Med. 24, on "William Beaumont, M. D."

Mr. Quackenbush's paper which showed throughout careful preparation and a keen appreciation of the subject, dealt with the work of Dr. Beaumont the U. S. army surgeon at Fort Mackinac, on Alexis St. Martin, the Canadian voyageur with the gastric fistula.

Through Dr. Beaumont's work extending over a period of twenty-seven years, a foundation was laid for much of our knowledge of the digestion of the food in the stomach. To this work he brought the same energy, the same independence of thought which led him, in earlier days, to throw down the gauntlet to President Adams when the latter reversed the decision of a court martial at which Beaumont had given the expert testimony.

Mr. Quackenbush dealt at some length with the character of Beaumont as exemplified by his work, his letters and his home life, and with the character of St. Martin, to whom the change from his native environment—the northern forests—to that of the scientific laboratory must have been a sore trial.

A hearty vote of thanks was tendered to the speaker, and some discussion and questioning followed. Prof. Tait gave a short but interesting comment on some present day's work of a like nature.

The meeting then adjourned to the Senior Lab., where the books of the Society Library were loaned out for the next three weeks.

Members are reminded that books borrowed on November 8 were due last night. A few were not returned and the holders of these books are requested to see Mr. Ward of Med. 24 or Mr. Phillips of Med. 25 at once.

An announcement of the next meeting and the speaker will be made through the Daily.

NEW SCHEDULE FOR BASEBALL

Many Interesting Games Have Already Been Played.

The following is the schedule for the last part of the first round of the class Indoor Baseball League.

Nov. 30th. Med. 26 vs. Law 23.
Dec. 1st. Dent. 23 vs. Med. 23.
Dec. 2nd. Sci. 23 vs. Dent. 25.
Dec. 6th. Sci. 24 vs. Arts 24.
Dec. 7th. Med. 24 vs. Dent. 23.
Dec. 8th. Med. 25 vs. Com. 24.
Dec. 9th. Med. 27 vs. Sci. 24.
Dec. 13th. Dent. 24 vs. Dent. 23.

At the close of this schedule all teams that have won two games or won one and drawn one game will be eligible for the second round.

As the approach of the City League makes it impossible to play a complete schedule, the remaining games will be played under the elimination system.

There will be approximately ten teams left for the second round and keen interest will no doubt be shown by each team as they will start this round on an even footing and a loss will put them out of the running.

It is therefore up to every team to play first class ball and to make sure when the final game is called that it will be their team that will be interested.

the disposal of both the French and Belgian authorities in this city. He was particularly concerned with the reservists called to the colours, and with the innumerable charitable organizations operated in aid of the gallant little Battleground of Europe.

The fortunate recipient was honoured some years ago by the French Government, who conferred upon him the Order of Public Instruction for his work in connection with the Alliance Francaise, and now the little purple rosette of that order, so well-known to students in Arts, will have to make room for the red-and-white of the order of King Albert, first class.

—The campus of the University of Colorado School of Mines is being equipped with powerful arc lights so that football practice may be carried on after sundown.

PEPYS AT MCGILL

Tuesday, Nov. 29th. I had this day to absent myself from several of my dis- courses at the colleges, which thing was in many ways somewhat of a relaxation; and so all day, nearly, about the streets in search of some lodging-house where I might take up my abode. As Mistress O-Grady is most adamant in her refusal to have aught more to do with me. At length I found me a little room near by to where dwells Mr. Hark upon Dorchester street, and the landlady asked me no silly questions, but only demanded five dollars in advance, which it pained me sorely to part from, but in all it was better than that she should fling at me the idle, vexing queries, that some of them did; whether I drank liquors, and if I could suit them with a letter of law-abiding conduct from some minister of the gospel who would vouch for me, and other annoying trash of a like sort. And so now I am settled, and many tell me that I have great good fortune to do so soon. To-morrow comes the great banquet that our freshman will tender as a love-token to the sophomores, and albiet I cannot find much

McGill Men!

In telling the merchants of the city when you make purchases from them, that you are from McGill, and that you are out to give "McGill Daily" advertisers first chance, you are doing nothing more than giving a square deal to two people---the Daily and the Advertiser.

And you owe it to them!!!

MCGILL LOST TO M.A.A.A. POLO TEAM

Seniors Lose by a 6-5 Score
PLAY TWO GAMES.

McGill Intermediates Win by a 2-1 Score.

The McGill Water Polo Seniors went down to defeat at the hands of the M. A. A. A., to the tune of 6-5, a large crowd of water polo enthusiasts of both sexes witnessed the contest.

The game was very closely contested, with both teams fighting hard to gain supremacy. McGill had the lead in the first part of the play only to lose it in the second and fight an uphill fight. The score was tied no less than three times, furnishing plenty of excitement and supplying interest to the spectators.

As the score indicates the teams were very evenly matched. The passing of both teams was good. McGill of M.A.A.A. played a wonderful game and the McGill men seemed to be unable to hold him. He scored five of the six goals for M. A. A. A. and was their star. Hodgson who scored the other M. A. A. A. goal played a heady game while both goal tenders, "Bob" Laishley and F. Carlin made some miraculous saves and looked after their department in a very efficient manner. Both the goalers were called upon to stop about the same number of shots—showing how evenly the teams were balanced.

G. Vernot of McGill scored 4 of McGill's goals, Fisk scoring the fifth. Vernot had a wicked shot that seemed to fool Carlin every time. Parsons and Fisk the other McGill forwards played hard and were closely watched by M. A. A. A. defence. The McGill defence, Foss and Laidley held their positions down efficiently.

F. McGill of the M. A. A. A. scored every one of his five goals by submerging in front of the McGill men near the goal, breaking lose from them and scoring.

The game by quarters was:

First quarter—McGill in the shallow end. Both Frank McGill and Fisk shot—goalers saved. Vernot scored on a long shot which slipped off Carlin's hands. Score: 1-0.

Second quarter—McGill in deep end—Frank McGill scored for M. A. A. A. on a brilliant shot. McGill team forced play and Vernot outwitting Carlin scored. On a long shot Vernot scored again from a pass from Laidley. Fisk rained shots on Carlin—all of which Carlin saved. F. McGill of M. A. A. A. scored two times in succession using his "submerging act". Score at half time 3-3.

Third quarter—Both goalers were kept busy: the play alternating from end to end. Hodgson, Fisk and Vernot doing most of the shooting. Frank McGill scores again. Score 4-3.

Fourth quarter—McGill deep water—Fisk scored on Carlin, tying score. Laishley made some fine saves. Frank McGill scored for M. A. A. A. Hodgson scored for M. A. A. A. With score 6-4 against them. McGill forced play into M. A. A. A. water. Both teams during last minutes of play started rough tactics and Hodgson and Laidley penalized for two minutes. McGill team forced play and Fisk scores. The game ended score 6-5.

As a result of M. A. A. A. win the Montreal Swimming Club lead the City League. The M. S. C. play M. A. A. A. next Friday at the M. A. A. A. tank. In event of M. A. A. A. win—there will be a three cornered tie in the league.

The line ups were:

McGill goal—"Bib" Laishley; defence, R. Foss and W. H. Laidley; forwards, H. Fisk (Capt.) and L. Parsons; centre, G. Vernot.

M. A. A. A. goal—F. Carlin; defence, G. Ritchie and P. Earl; forwards, F. McGill (Capt.) and G. Hodgson; centre, R. T. Logan.

Before the senior game, the McGill Intermediates trimmed the M. A. A. A. Intermediates by a score of 2-1. The McGill team had the upper hand in a closely contested match. The better shooting of the McGill team coupled with the brilliant work of A. Browne in goal were responsible for the Red and White victory. Time and time again Browne would make seemingly impossible saves. He was called upon to stop more shots than Dey of the M. A. A. A.

Ross Munro, and Vickerson played a stellar game—for McGill on the forwards. Ross and Vickerson tallied for McGill both on passes from Munro who played a very consistent end effective game. Forsyth and Anson broke up the M. A. A. A. plays and contributed largely to the result of game.

For the M. A. A. A. W. Earl scored the lone tally. The teams fought hard and in the last two quarters, took desperate chances to increase the score. This latter half was marked by the work of both Browne and Dey in the nets and in the very able manner they saved their nets.

The line up was:

McGill Intermediate:
Goal—G. Browne, (Capt.); defence, C. Anson and J. Forsyth; forwards, G. Vickerson and W. D. Munro; centre, J. Ross.

M. A. A. A. Intermediates:
Goal—F. Dey; defence, J. A. Calbill and J. McConnell (Capt.); forwards, W. Earl, T. Quirk; centre, R. Binnore.

SCHEDULE FOR PRACTICES ANNOUNCED

Hockey Season Opens With Many Men Trying for Teams.

GOOD ICE.

Suitable Hours Have Been Arranged for Practices

A light skating practice was held yesterday afternoon on the hollow rink. Not many aspirants for this season's honors were present. This will probably be remedied today, however, when the following schedule takes effect. The ice is in very good shape for so early in the season, and should the cold weather continue, a perfect sheet will soon be available. Lights are being installed and everything possible will be done for the convenience of the players while they are waiting for ice at the Arena.

This schedule has been drawn up to suit the convenience of the players and Shag hopes that every man will turn out at the allotted time.

"A"

Waldman, Goldie, Gammell, Williams, Murphy, Gallery, Falls, Lynch, Legge.

"B"

Robertson, Clements, Harris, Goldenberg, Gomitzka, Brunau, McGonn, White, Kersley.

"C"

Consiglio, Conner, McNaughton, Warren, Crepeau, Bourne, Mace, Eggerton.

"D"

Fairbanks, Abbott, Joslin, Hyman, Moore, Pinkey, Ross, H. Smith, Skelton.

"E"

Connell, H. Johnson, Lanciot, Luxton, Dion, Fairbairn, Schlei, McGillis, Holden, Woods, Burroughs.

"F"

Watt, Notman, MacNider, Woods, Smallhorn, Kelly, McKindsey, Cromwell, MacLaren.

"G"

Brewer, Bonavitsky, Martin, Connors, Ramsey, D. Johnson, McGerrigle, McEvoy, Lanthier.

"H"

Frederick, McEligott, Lawson, Parlow, Hamilton, Greer, McDougall.

Monday.

4-5—"A" and "B."
5-6—"C" and "D."
6-7—"E" and "F."

Saturday.

4-5—"H."
5-6—"E" and "F."
6-7—"G" and "A."

Friday.

3-4—"B" and "C."
4-5—"A" and "H."
5-6—"D" and "E."

Thursday.

4-5—"E" and "A."
5-6—"F" and "B."
6-7—"G" and "H."

Wednesday.

4-5—"H" and "B."
5-6—"C" and "D."
6-7—"F" and "G."

Tuesday.

2-3—"G" and "H."
3-4—"A" and "B."
4-5—"E" and "C."

BASKETBALL MEN MEET FOR WORKOUT

Some Heavier Men Needed on Senior Squad.

Coach Fox gave the senior basketball squad a good work-out last night in the Highlander's gymnasium. A few of last year's men were in uniform, and were working hard to get into their usual pace, and judging from their efforts it will not be long before they find it. This, of course, is only their temporary goal of achievement.

The lack of weight was very noticeable among the players, and the coach expressed his hope that some heavier men would soon turn out for practice. Any man who has weight and can play the game would receive a welcome by the coach, who is anxious to meet such fellows and give them a good tryout along with the other members of the squad, who are trying for the senior team.

There seems to be some misunderstanding among the men, as well as the authorities, as to the time for practice. This matter is to be settled to-day, and a notice will be put in to-morrow's Daily so that these grounds for excuse will no longer be tenable.

The team has a competent coach, and the university is fortunate in obtaining his services. He is determined that McGill will win the championship, and with co-operation of the undergraduates, especially those who can play the game, this determination will be accomplished.

Fi—Yes, he had the audacity to kiss me.

Mo—Of course, you were indignant?

Fi—Yes, every time.

This win for the Intermediates puts it in the top position with the Maisonneuve team. George Moore and F. Walton of the M. S. C. handled the teams very satisfactorily and rendered their decisions very fairly.

BOXERS HOLD ELIMINATIONS TONIGHT AT 8

About Eighteen Bouts are to be Staged.

FINE PROGRAM.

Interfaculty Championships to be Held Week of December 11th.

The boxers of the B. W. and F. held an important tryout last night at Molson's Hall. The beginners' class about fifty strong, was on the floor at five o'clock, and Coach Robinson put the men through a vigorous ten minutes of shadow-boxing, followed by an instructive talk on ring generalship, before the gloves were put on for some real bouts.

The advanced class was held at six o'clock, and a bout was staged between Goldapple and R. A. Shakell of Commerce for the faculty championship in the 118 lb. class. Superior speed and a powerful left gave the decision of a snappy contest to Goldapple.

Dave McKee, president of the B. W. and F. spoke of the advisability of fixing a date for the final interfaculty championship contests, and it was decided that these should be held on the Wednesday or Thursday of the week of Dec 11th.

The program of eliminations for tonight, Wednesday, is as follows: Merritt, Cane, Wolsey and Smeaton in Science 135 lb class; R. J. Sharpe vs J. M. Sharpe in Science 108 lbs; the first round of eliminations in Medicine will also be held; and the Arts finals Craik vs Cope, 135 lbs; and Gardiner vs. Everett, 145 lbs; Gow vs. Barkoff. Commerce 135 lbs. All men must weigh in before their donning the gloves. The public is cordially invited, and a fine exhibition consisting of about eighteen bouts is scheduled to start at 8 p.m. sharp.

The eliminations are to be continued on Thursday. Between 5.45 p.m. and 6.15, Warren and Champion will decide the Science championship in the 145 lb. class, while Cooke having withdrawn, Binns and MacGregor are matched in the finals of the Science 158 lb. class, while Wilson and Stearns are contesting in the eliminations of Commerce 158 lbs.

All men not present will default.

TO GIVE A LECTURE TO SCIENTISTS

On Piezo Electric Effect—Mr. Nicholson Will be Speaker

8.15 TO-NIGHT.

Under the Auspices of Northern Electric Engineering Society.

The privilege of hearing Mr. A. McLean Nicholson's lecture on "The Piezo Electric Effect" will be given to the Third and Fourth year students of Applied Science and to Honor Students (Mathematics and Physics) of the Faculty of Arts, at 8.15 to-night. The lecture will be delivered in the Macdonald Physics Building Lecture Theatre, and it is owing to the lack of seating capacity that the invitation is limited to such a small number of students.

This lecture will be accompanied by "A Demonstration of how Crystals are made to talk." This demonstration by itself should prove very interesting, but a double treat is in store for those who go as Mr. Nicholson is a man well versed in this subject. The lecturer is Research Engineer of the Western Electric Company of New York, and the lecture is given under the auspices of the Northern Electric Engineering Society.

A few days ago the announcement was made in the Daily that tickets could be obtained at the desk in the library by those eligible for admission. Possibly some have neglected enquiring for them, and if such is the case they are strongly urged to avail themselves of this great opportunity.

It is deeply regretted by the Northern Electric Engineering Society that the invitation cannot be extended to a greater number of students, but as a large part of the Society's members are expected to attend, it was deemed advisable to limit the invitation.

ARTS SENIORS WIN INDOOR BASEBALL

One of Closest Games Played So Far This Year.

Three to two for Arts '22 was the verdict in an air-tight game of indoor baseball last night. The contestants were fourth year Arts and second year Commerce. Neither team has been beaten this year so that first class ball and a close score were to be expected.

Both teams showed some signs of (Continued on Page 4.)

CANDIDATES' PLATFORMS

(Continued from Page 1.)

PARSONS—Continued.

interclass athletics are entitled to numerals, as it often happens that men on a winning team have not worked harder or shown more ability than some men on a team that has made a poor showing.

2.—Nowadays everyone is preaching economy and prices are tumbling. In spite of this fact, the price of food at the Union Cafeteria is beyond all reason, as the following scale of prices obtaining at other universities will show:

Varsity: Breakfast, 25c; dinner, 35c.

Harvard—One dollar per day for all meals.

The Wesleyan College serves a meal for 40 cents while at the Union Cafeteria one has to stand in line and pay sixty cents for the same meal.

Does the management of the Union Cafeteria pay 50% more for food than does the management of the Wesleyan?

If elected, I promise to give my very best effort to putting an end to such exorbitant prices and thus effect a considerable saving for the student who eats at the Union.

Prep. school—Montreal High.

War record—Rejected for short-sight.

Business Experience—Manager of Export department. Geo. Thomson and Bro. Montreal.

College Activities:—

Senior Football Team 1919-20-21. Intercollegiate water polo championship team 1920 and 1921. Intercollegiate swimming championship team 1921. Dominion water polo championship team 1920. Treas. Swim. Club 1920-21. Vice-Pres. Swim. Club 1921-22.

MARTIN—Continued.

the Students' Council, I shall do all in my power to further the interests of the Law students. We have more trials and tribulations than another faculty, and to obviate these I shall be at your disposal and ready at all times to hear your suggestions. If feasible they will be acted upon if at all possible on my part.

Further, I wish to refute the statement that is credited to me by an opponent adherent, i.e., that I have, like my namesake, Mederic Martin, formulated plans whereby I shall remain in office for life. This is ridiculous, as the term of office is one year only, and besides, I may graduate before long.

E. C. MARTIN,
Per Pro. R. Marcotte.

JOHNSON—Continued.

deavour at all times, to devote sufficient time and consideration to questions that present themselves. It shall be my aim to further the interests of the Faculty of Arts in the Students' Council, provided that they are for the general welfare of the whole University.

I am in favour of increased activity in inter-faculty athletics; and a system of awards that shall be a fair recognition of merit displayed.

PLATFORM OF A. J. MacMILLAN,
For Dental Representative.

The platform upon which I stand for election as Dental representative on the Students' Council is as follows:

1.—General efficiency of the Students' Society.

2.—Advancement of Inter-Faculty sport, giving due recognition to the Inter-Faculty champions.

3.—The furtherance of the university spirit in every way and every manner possible.

Born at Ottawa, March 23, 1896.

Prep. School—Ottawa Collegiate.

Returned soldier.

Year—Dentistry '23.

PLATFORM OF J. HARRY LAISHLEY,

For Dental Representative.

Born—Stratford, Ont., 1896.

Matriculated Ottawa, 1915.

Fifteen months service overseas.

Entered Dentistry at McGill 1919.

Activities—Inter-faculty rugby and hockey; sec.-treas. Dental Undergraduate Society, 1921-22; Pres., Dent. '23 in Junior Year.

If I have the honour of being your representative to the Students' Council in the coming election it will be my aim to further the interests of Dental undergraduates in all student activities, and at all times to keep in touch with the needs and feelings of the undergrads, and to the best of my ability discharge the duties of this important office.

J. H. LAISHLEY.

PLATFORM OF R. DONALD TAYLOR, Law '23.

For Law Representative.

The man without a platform.

No platform was sent in for publication by Wilkes, Nominee for the position of Law representative on the Students' Council.

R.V.C. PARTIALS ELECT OFFICERS FOR 1921-22

The second meeting of the R. V. C. Partial Society was held on November 29th, in the Common Room at R.V.C., for the purpose of electing officers for the coming year. Those elected were:—
President—Miss Mary Russell.
1st Vice-President—Miss E. McArthur.
2nd Vice-President—Miss Ruth Ayer.
Secretary-Treasurer—Miss Grace Bender.

1st Year Representative—Miss Hamilton.
2nd Year Representative—Miss L. Gilday.
3rd Year Representative—Miss Bernstein.
4th Year Representative—Miss Ruth Ayer.
The President, Miss Russell, brought the meeting to a close by a short outline of the activities of the society last year.
"This air is very familiar," said the musician as a gust of wind whisked his hat off.

REVERIES OF A LIBRARY FIEND.
It really, really grieves me so
To see the Freshmen downward go;
But that's the fate of all you know
Who come to the "Lib" for a date to the show.
Don't mind if you're escorted down
The stairs by gentle hands;
Just think a bit and study some,
And you won't get such commands.
Life is real, life is earnest.
And a date is not its goal;
And the "Lib" is a place to study,
Where one must expand his soul.
